Summary

Motivated CSE student (CGPA 8.40) with solid full-stack experience using JavaScript, Node.js, React, and MongoDB. Built scalable projects like a AI Resume Builder, Portfolio Website, and Ecommerce Website. Passionate about creating secure, user-friendly web applications and solving real-world challenges.

Projects

AI Resume Builder

Jan–Ongoing

- Developed a dynamic web application that enables users to create personalized professional resumes with real-time preview, customizable templates, and export options (PDF/Word).
- Utilized HTML, CSS, and JavaScript, Artificial Intelligence on the front end and Node.js, Express.js, Machine Learning, Python and MongoDB on the back end, resulting in a 25% reduction in resume creation time and improved data accuracy.

Portfolio Website

August 2024

- Developed a responsive and user-friendly platform using HTML, CSS, and JavaScript to showcase my projects.
- Integrated secure user authentication and role-based access control for efficient content management and data protection.

E-commerce Website (Full-Stack)

Dec 2023

- Developed a responsive full-stack e-commerce platform with secure user authentication and role-based access control.
- Utilized HTML, CSS, JavaScript for the front end and Node.js, Express.js, MongoDB for the back end to ensure seamless performance.

Experience

Bharat Intern (August 2024)

Full Stack Developer Intern

- Developed a registration page using HTML, CSS, JavaScript, and React.js, implementing form validation and authentication.
- Built a blogging website using MERN stack, enabling users to create, edit, and manage posts with role-based access control.
- Gained hands-on experience with RESTful APIs, database management, and state management in React

Education

Chitkara University

April 2022-Present

Bachelor of Engineering in Computer Science

CGPA : 8.4
